Technology Ltd.

## PRESS RELEASE

**VANCOUVER, BC, January 2, 2020** - Innovative Circuit Technology Ltd. (ICT), a leader in DC power systems and remote power management solutions, is pleased to announce that **MBSI WAV** has been added as an authorized value added distributor for Canada. MBSI WAV is a leading distributor to the Canadian wireless market, including Wireless Internet Service Providers, Value Added Resellers, and Solution Provider communities.

As a value added distributor for ICT, MBSI WAV will be able to offer leading edge DC power solutions from ICT to provide a comprehensive, end-to-end solution to their customers.

### About ICT:

ICT provides DC power conversion products for the land mobile radio, fixed wireless broadband, small cell and industrial DC power markets. Our DC power supplies, hot-swappable DC power systems, voltage converters, battery chargers, power inverters, DC backup systems, and Ethernet-enabled intelligent power supplies and DC power distribution panels are used in wireless communications and industrial power sites around the world. ICT is a leader in providing innovative DC power solutions for wireless base station applications featuring remote I.P. monitoring and control of DC power to avoid unnecessary site visits, reduce operating costs, and maximize Quality of Service. Our intelligent, managed DC power products with integrated Ethernet utilize built-in web servers, easy to use graphical user interfaces, and HTML or SNMP protocols to make management over your network easy, secure and seamless.
