

ICT ANNOUNCES THE DISCONTINUATION OF THE ICT200-LVD LOW VOLTAGE DISCONNECT

ICT is announcing the discontinuation of the ICT200-LVD low-voltage disconnect, effective July 1, 2021.

For customers who require low voltage disconnect (LVD) functionality, ICT’s DC power systems, DC power supplies and DC-AC inverters are all available with internally integrated low voltage disconnects.

This includes MPS Ultra, Modular Power Series, Platinum Series, Pro Series and Sine Wave Series product families.

ICT200-LVD

DISCONTINUED ACCESSORY

| MODEL | DESCRIPTION |
|------------|--|
| ICT200-LVD | Protects batteries from damage by over-discharging |
