

ICT INTRODUCES NEW INTELLIGENT 10/10 GMT LOAD DISTRIBUTION PANEL

ICT is releasing a new dual-bus, 20-output, GMT-fuse DC distribution panel to its Distribution Series 3 line of intelligent DC distribution panels.

The 1RU, 200-amp, dual-bus, GMT-fuse DC distribution panel is designed for +24 and +/-48 VDC installations, and supports 100 amps per bus, each with 10 GMT fuse-protected outputs supporting GMT fuses rated up to 20 amps. It includes TCP/IP for remote monitoring and power control of individual outputs, with HTML, SNMP v1/v2c/v3 and email alarms. There are also five digital input contacts for site monitoring sensors, such as door, smoke, and fire alarms.

Available starting March 15, 2022, the ICT200DF-20BRC is designed and manufactured in North America by ICT.
